

We would like to voice our opinion in the above referenced matter. K-Love radio is a definite need in the area that it serves as there is not another contemporary christian MUSIC channel available to those who prefer this type of broadcast. Because K-LOVE radio offers a positive alternative to our community, especially to our teen population, we believe strongly that to lose it would be extremely detrimental. We have a teenage daughter and many of her friends listen to K-LOVE radio. There are so many bad examples out there with reference to some of the material on other channels that it seems only reasonable and in the public's best interest to maintain this wonderful alternative. We ask you to really think about this matter and to please consider leaving K-LOVE radio on the air. Thank you for this opportunity to be able to make this request.
